Product Data Sheet

30-Device iPad®, Chromebook®, Tablet, and Laptop Cart—Steel Top, Fixed Shelves, and Hinged Doors

LCC30H-A, Front

About the timers:

4-bank timer: Every 15 minutes, **CARTTIMER1** cycles between 4 banks (each bank is one outlet). In one hour, each bank is on and charging for 15 minutes. With this timer, there is little chance of drawing too much current. But if you aren't using all four banks, there is a dead period where nothing is charging.

2-bank timer: UCCTIMER2 cycles between 2 banks (each bank is one outlet). The cycle time is 15 minutes, so there is no dead period as long as you are charging both banks. But with UCCTIMER2, there is the possibility of drawing too much current.

Basic Features

- Secure, charge, store, and protect up to 30 iPads, Chromebooks, tablets, laptops or other devices in our one-size-fits-all cart.
- One-size-fits-all shelf has slots that can accommodate most devices on the market, so when you upgrade devices, you won't need to buy a new cart.
- Single Carts hold more in a smaller footprint, while still offering a usable smooth metal working surface that can serve as a podium.
- Ships assembled or unassembled, depending on your needs.
- Provides superior cable management for laptops and Chromebooks.
- This high-quality cart is made of durable, sturdy metal. It rivals competitors' carts that cost much more.
- Locking rear access panel.
- LCC30H-AT includes cart plus a 4-bank timer (CARTTIMER1).
- LCC30H-AT2 includes cart plus a 2-bank timer (UCCTIMER2).
- The timers can also be ordered separately if you order the LCC30H-A now and then decide you need a timer later.
- Includes three 12-outlet power strips.
- When you need to store and charge multiple laptops, Chromebooks, iPads, tablets, or other devices in your classroom, hospital, airport, or restaurant, this cart makes the grade.
